

OVERVIEW:

Global Facility Solutions is based in Maryland and operates nationwide providing energy and engineering solutions:

- Utility Analysis
- Commissioning/RCx Services
- Building Systems Operational Analysis
- Energy Auditing
- Operations Planning & Management Services
- LEED Analysis
- Mechanical System Design
- Turn-key Facility Upgrades

We focus our solutions to meet the needs of our clients and their facilities.

QUALIFICATIONS:

We are registered engineers and building operations professionals with direct experience in the commercial HVAC and building systems business.

Our team experience includes building automation and controls, central chiller/boiler plant operations, HVAC system design, utility analysis, energy modeling (Trane Trace 700), retro-commissioning and O&M performance reviews. Our total years of in-house experience exceeds 110 years combined.

Objective energy and facility solutions to optimize facility performance.

RECENT PROJECTS:

Outstanding Performance = Repeat Business

Global Facility Solutions has developed energy and building solutions projects totaling more than \$60 Million over the last two years. Our clients consist of Federal Government, State and Local Government, Public and Private Schools, Industrial Facilities and Commercial Buildings.
